Contents of Volume 12

Part 1, March 1994

Special issue: Magic

1 Unexpected, impossible and magical events: Children's reactions to causal violations
Paul L. Harris

9 Physical reasoning in young infants: Seeking explanations for impossible events
Renée Baillargeon

35 Magic: Special but not excluded
Carl N. Johnson and Paul L. Harris

53 Young children's practical reasoning about imagination
Jacqueline D. Woolley and Katrina E. Phelps

69 Exploring the relation between preschool children's magical beliefs and causal thinking
Karl S. Rosengren, Charles W. Kalish, Anne K. Hickling and Susan A. Gelman

83 Surprising, magical and miraculous turns of events: Children's reactions to violations of their early theories of mind and matter
Michael J. Chandler and Chris E. Lalonde

97 Early rationality and magical thinking in preschoolers: Space and time
Eugene Subbotsky

109 **Book reviews**

Part 2, June 1994

113 Children's judgement of ignorance on the basis of absence of experience
E. J. Robinson and P. Mitchell

131 Changes in the content and timing of mothers' talk to infants
Jack Broerse and Gordon Elias

147 The link between phonological memory and vocabulary acquisition
Irene C. Michas and Lucy A. Henry

165 Working memory in children: A developmental approach to the phonological coding of pictorial material
Sheila Ford and Kevin P. Silber

177 Children's narratives under different conditions: A comparative study
Alina G. Spillino and Giuliana Pinto

195 Optimal mismatch for transfer of planning skills by slow learners
John Todman and John McBeth

209 The inferential structure of class-inclusion tasks
J. F. Richard and M. E. Leynet

235 Visual realism in the drawing of autistic, Down's syndrome and normal children
Kate Eames and Maureen V. Cox

Part 3, September 1994

241 The influence of gender labelling on preschoolers' gender constancy judgements
Ann Johnson and Ellen Ames

251 Preschool children's genital knowledge: Does Bem's report of a male deficit survive replication?
Barbara Lloyd and James Stroyan

259 Preschoolers' and adults' translation and reconstruction of spatial information acquired from maps
David H. Uttal

277 Childhood changes in speed of information processing and mental age: A brief report
T. Nettlebeck and C. Wilson

281 Number transcoding in children: A functional analysis
Xavier Seron and Michel Fayol

301 What makes strategic deception difficult for children—the deception or the strategy?
James Russell, Christopher Jarrold and Deborah Potel

315 Bully/victim problems in middle-school children: Stability, self-perceived competence, peer perceptions and peer acceptance
Michael J. Boulton and Peter K. Smith

331 The development of word-coding skills in the born deaf: An experimental study of deaf school-leavers
Vivian Burden and Ruth Campbell

351 The effect of task on preschool children's ability to represent meaning through graphic skills
Angela Sorsby and Margaret Martlew

365 The word recognition skills of profoundly prelingually deaf children
Jill D. Merrills, Geoffrey Underwood and David J. Wood

385 An investigation into selective learning abilities in normal and attentionally disordered children using the Kamin blocking paradigm
Steven H. Jones, Maria Callias and Jeffrey A. Gray

397 The 'seeing-leads-to-knowing' deficit in autism: The Pratt and Bryant probe
Simon Baron-Cohen and Frances Goodhart

403 Normal and autistic children's understanding of their own and others' false belief: A study from Japan
Mika Naito, Shin-ichi Komatsu and Toshiya Fuke

Part 4, November 1994

417 Children's ability to distinguish fantasy events from real-life events
Adrienne Samuels and Marjorie Taylor

429 Preschool children's ability to disregard meaning and focus attention on the phonological properties of speech: Some discrepant findings
Cláudia Cardoso-Martins and Geísa Andrade Duarte

439 Understanding of verbal representation in children with autism: The case of referential opacity
Peter Mitchell and Josephine E. Isaacs

455 The role of familiarity and sound in the development of person and object permanence
Maria Legerstee

469 The role of rhyme awareness in learning to read a regular orthography
Heinz Wimmer, Karin Landerl and Wolfgang Schneider

485 Reactions of young children with Down's syndrome to an impossible task
T. K. Pitcairn and Jennifer G. Wishart

491 Communication between blind and severely visually impaired children and their parents
Vanessa Moore and Helen McConachie

503 Use of the availability heuristic by children
Mary Davies and Peter A. White

507 The effects of a fantasy context, an obligation schema, and a rationale on children's conditional reasoning
Wendy L. Seier

523 The child's understanding of functional relations in the domain of liquid quantity
Irvin Sam Schonfeld

539 Attentional problems in the classroom and parallel processing ability
John Wilding

555 The effect of humour on children's developing theory of mind
Linda C. Mayes, Ami Klin and Donald J. Cohen

563 Making a dyad: Cohesion and distancing in children's pictorial representation of friendship
Anna Silvia Bombi and Giuliana Pinto

577 Eliciting partial occlusions in the drawings of 4- and 5-year-olds
C. Janine Arrowsmith, Maureen V. Cox and Kate Eames

585 Understanding of the banking business in Japan: Is economic prosperity accompanied by economic literacy?
Keiko Takahashi and Giyoo Hatano

591 **Critical note**: Understanding Other Minds: Perspectives from Autism
